LFH 7675 Digital Voice Tracer

Digital Voice Tracer 7675

Important information for creative thinkers.

The Philips Digital Voice Tracer 7675 gives you an “intelligent second memory”.

The file system with folders guarantees easy organization of recordings and the voice activation feature gives you hands-free recording. The device is a digital notepad, just connect it to the PC and download the files via USB cable, play them back, edit them and send them by email.

Plus, you can convert voice files to WAV format, and send a voice message via e-mail.
