

# DS-2600

Give efficiency a lift in your workplace with the attractively styled, robust bodied Olympus DS-2600 Digital Dictation recorder.

Ideal for all busy independent professionals, this powerful tool lets dictations and notes be taken both at the desk and on the go to ensure maximum utilisation of precious time and fully exploit productivity potentials.

## Product Features

### Large microphone for Dictation with Stereo Recording Capability

The DS-2600's redesigned, speech optimised microphone is independently housed for flawless sound reproduction. The stereo recording capability offers users not only use for Dictation but also support for recording conferences or meetings.

### Excellent Visibility with Large Colour Display

The DS-2600 features a 2.4 inch TFT colour LCD. This is around double the size of the previous model and supports 240,000 colours, making the information on-screen much easier to read.

### Stereo Conference Recording

Capable of recording in high quality stereo formats PCM (WAV) and MP3. Capture every meeting, interview, conference and lecture with total clarity, then share your recordings with others.

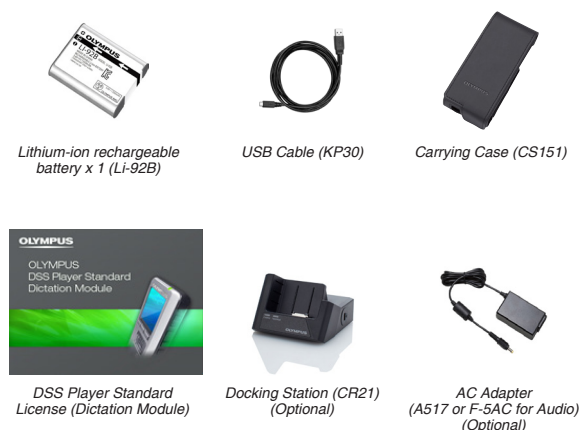

### Intuitive Controls

Since the slide switch is the most used part of the device, it is essential to offer a durable and reliable switch in order to withstand the demands of use in a professional environment. The optical switch simplifies the structure of the component to reduce the potential risk of defect, yet still offers excellent usability at the same time.
